

After obtaining our own B Corp accredited status, we are providing four packages to support organisations looking to start the process of becoming a B Corp.

These packages are: ● Document only ● Light ● Supported ● Premium

Document only

Supply of the necessary B Corp wording which simply needs to be inserted into a company's articles of association.

This is suitable for companies:

- with very few shareholders and a simple structure; and
- that carry out their own corporate approvals and Companies House filings.

Light

This package includes the supply of B Corp compatible articles of association and the necessary corporate approvals.

This is suitable for companies:

- with very few shareholders;
- that were formed with the default model articles; and
- that carry out their own Companies House filings.

Supported

Full support during the process of adopting bespoke articles of association compatible with B Corp status.

This is suitable for companies:

- with bespoke articles; and
- need assistance with Companies House filings.

This package includes:

- amending existing bespoke articles of association;
- drafting the necessary corporate approvals;
- setting out instructions for how to finalise the documents with the company's shareholders;
- all Companies House filings.

This package includes a preliminary introductory phone call of up to 20 mins and follow up calls to assist with guidance on the process.

Premium

We will advise on any specific requirements around a company's social and environmental focus including:

- whether it should have a more bespoke social or environmental mission; and
- whether it wants to embed further provisions/policies into its documents to protect its environmental mission.

This package is suitable for companies:

- with bespoke articles of association;
- with several shareholders or members, which might include investors or donors and involve constitutional documents such as shareholders' agreements; and
- that have more complicated groups of stakeholders that require consideration or are undertaking various legal workstreams simultaneously.

This package includes:

- preliminary introduction phone call;
- advice on B Corp assessment criteria and policies;
- amending existing bespoke articles of association;
- drafting the necessary corporate approvals (e.g. including any shareholders' agreement);
- setting out instructions for how to finalise the documents with shareholders;
- Companies House filings; and
- ongoing support via email and phone..

This package could be integrated with other legal workstreams such as funding rounds, implementation of option schemes, entering into grant agreements or setting up group entities such as holding charities or trading subsidiaries.

Once we have discussed your requirements, for any additional work required beyond the provision of our free template documents, we will be able to confirm a fixed fee to give you certainty of budget before commencing work.

All packages are subject to client onboarding, KYC checks and signed engagement letter setting out our terms and conditions.
